Program Alignment

- Programs are aligned and strategies are prioritized.
- Clarity on how data collected will show progress toward short, intermediate and long-term results.
- Performance measures derive from clarity

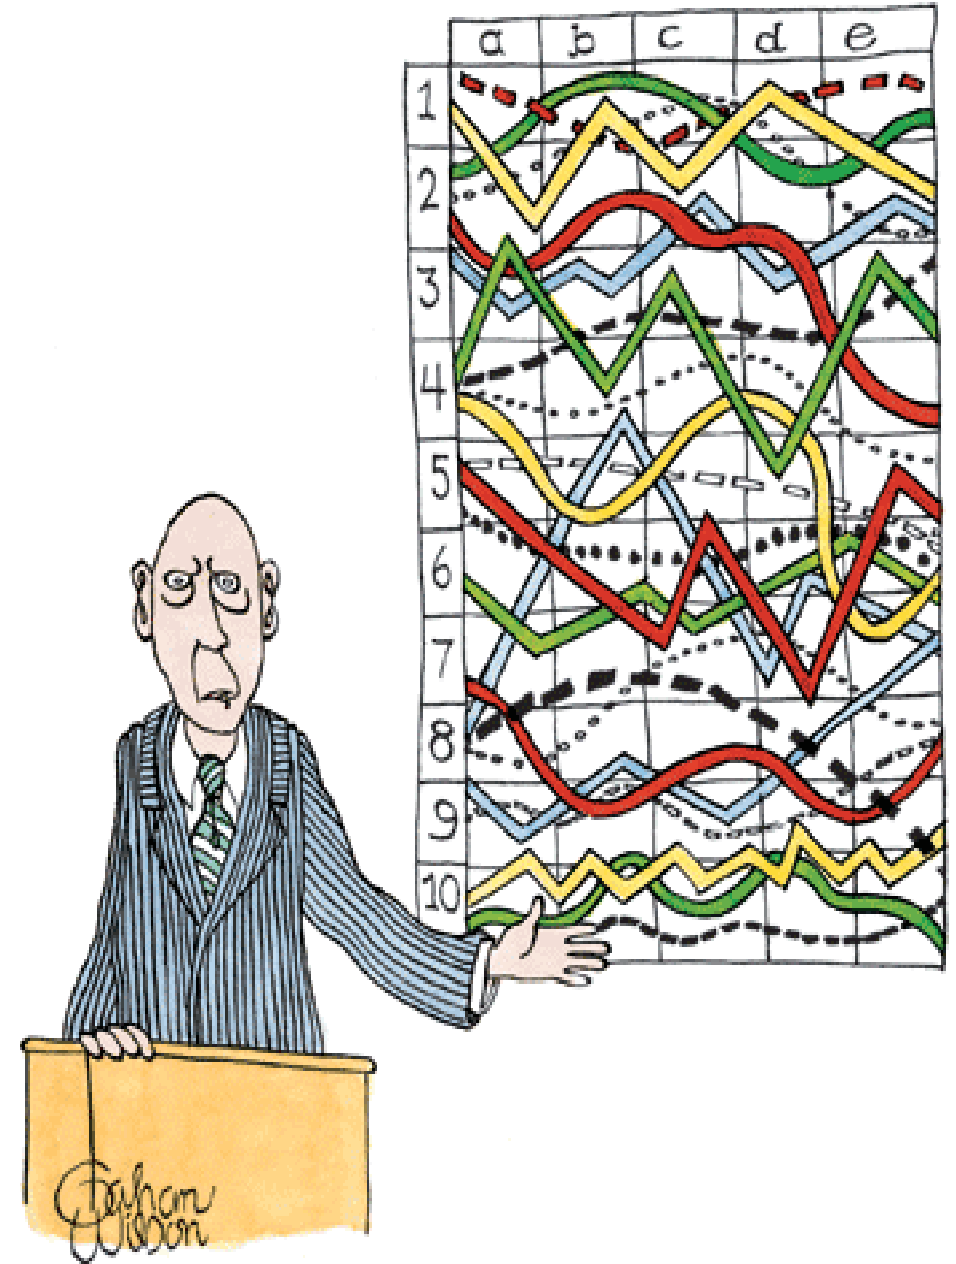

Staffing

- Clarity on staff's roles in relation to all things data (policies for data accountability)
- Team directly responsible for data systems build-out, maintenance, reporting, and integration.

Data System

- Integrated vision (build-out reflects programmatic alignment and priorities)
- Start small. Pilot. Learn lessons, and then, and only then, build some more.

"I'll pause for a moment so you can let this information sink in."

THANK YOU!

Tara Watford

Director of Research and Evaluation
